Love INC
 Love In the Name of Christ

Love INC of the Boise Community

2010

Love INC of the Boise Community

The church doorstep is a frequent destination for people in desperate need, But most churches cannot fully meet the needs of every unemployed family, single mom, or hungry child who asks them for help.

Or can they?

Love Inc the Name of Christ enables churches and ministries to pool their resources and outreach services so that those in need are not turned away.

As churches show Christ's love to their neighbors, communities see exciting results:

- Families in need receive long-term help.
- Church members use their gifts and talents in hands-on-ministry.
- Local churches come together, modeling the unity of the Body of Christ.
- Communities are transformed.

How Big is Your Vision?

The Vision

Imagine the difference churches can make by joining with other churches in

our community to help those in need. When the Body of Christ works together, the results can be miraculous!

The Challenge: Many realized that though our community has many churches, few are working together. Some people in need receive help, but other simply cycle from church to church. Few lives improved enough to actually break through poverty.

The Solution: Christian Leaders in this community founded Love INC of the Boise Community based on a simple strategy: Bring community churches together across denominational lines and inventory their collective resources, ministries, and talents of the people in the congregation. Next, match those resources with people in need. Since Love Inc of the Boise communities became fully operational in August, 2009, we have partnered with 18 churches and opened 6 gap ministries
